

## **Job Description**

**Position:** Asset Maintenance Technicians

**Project Duration:** 90 Days

### **Job Function:**

**Talon Holdings Ltd.** is seeking skilled and qualified **E&I Technicians, Mechanical Technicians, Riggers,** and **Banksmen** for an upcoming shutdown project. This is an excellent opportunity for experienced professionals to contribute to a dynamic team in a challenging and rewarding environment.

### **Principal Duties and Responsibilities**

- **E&I Technicians:**
  - Inspect, maintain, and troubleshoot motor controls, rotating equipment, and instrumentation systems.
  - Install, commission, and test electrical and instrumentation equipment.
  - Calibrate and configure devices for optimal performance.
- **Mechanical Technicians:**
  - Perform maintenance, repairs, and installation of mechanical systems and rotating equipment.
  - Diagnose mechanical issues and implement corrective actions to minimize downtime.
  - Ensure proper alignment, lubrication, and functionality of machinery.
- **Riggers:**
  - Safely set up and dismantle rigging for heavy equipment and materials.
  - Operate and manage rigging equipment to ensure secure load handling.
  - Assist in lifting, positioning, and securing loads according to project requirements.
- **Banksmen:**
  - Guide crane and heavy machinery operators to safely position and maneuver loads.
  - Signal and communicate effectively to ensure the safe movement of equipment.
  - Monitor job site conditions to maintain compliance with safety regulations.
- **General Responsibilities for All Roles:**
  - Follow all safety protocols, including working at heights and in confined spaces.
  - Ensure compliance with project standards, including PLEA and OGUK requirements.
  - Accurately document activities and provide detailed reports to supervisors.
  - Collaborate with team members and supervisors to meet project deadlines and resolve technical challenges.

### **Qualification and Experience**

- **E&I Technicians:**
  - Education: EEET certification or equivalent.
  - Experience: Minimum 3 years in motor controls, rotating equipment, and instrumentation systems.
  - Certifications:
    - PLEA (Point Lisas Energy Association).
    - OGUK medical certification.

## **Job Description**

**Position:** Asset Maintenance Technicians

**Project Duration:** 90 Days

- Certificate of Character (recent).
- Valid 7-point drug test.
- Skills: Expertise in troubleshooting, installation, and calibration of electrical and instrumentation systems.
  
- **Mechanical Technicians:**
  - Education: Certification in Mechanical Engineering or equivalent.
  - Experience: Minimum 3 years in mechanical maintenance, repairs, and installation of rotating and fixed equipment.
  - Certifications:
    - PLEA (Point Lisas Energy Association).
    - OGUK medical certification.
    - Certificate of Character (recent).
    - Valid 7-point drug test.
  - Skills: Proficiency in diagnosing and repairing mechanical systems, alignment, and lubrication techniques.
  
- **Riggers:**
  - Education: Certified training in rigging operations.
  - Experience: Minimum 3 years in rigging and heavy load handling.
  - Certifications:
    - PLEA (Point Lisas Energy Association).
    - OGUK medical certification.
    - Certificate of Character (recent).
    - Valid 7-point drug test.
  - Skills: Knowledge of rigging equipment, load balancing, and safety protocols for lifting and positioning loads.
  
- **Banksmen:**
  - Education: Certified training in signaling and load guidance.
  - Experience: Minimum 3 years in guiding cranes and machinery for safe operations.
  - Certifications:
    - PLEA (Point Lisas Energy Association).
    - OGUK medical certification.
    - Certificate of Character (recent).
    - Valid 7-point drug test.
  - Skills: Effective communication for signaling, monitoring site safety, and adherence to load-handling regulations.

### **Additional Requirements (All Roles):**

- Willingness to work at heights and in confined spaces.
- Strong understanding of safety standards and compliance practices.
